

COASTAL FLOOD MAP CHANGE NOTICE FOR PERMIT APPLICANTS

NEW FLOODPLAIN DRAFT MAPS HAVE BEEN RELEASED:

FEMA has issued new DRAFT coastal flood maps which will eventually replace the current flood maps, which are based on 30+ year-old studies. Monroe County wants to ensure all permit applicants are aware of the potential for a change in flood risk for the property(s) on this permit as a result of this updated study. Consequently, Monroe County is requiring all permit applicants to sign a statement recognizing the issuance of these new DRAFT coastal flood maps and the fact that these maps may indicate a future change to the required elevation of the building currently being permitted.

I, (***Owner Signature***),
understand and acknowledge that I have been informed about the release of the new draft coastal flood maps and that the permitting requirements may change based on the new coastal flood maps.
